

The annual patient questionnaire has now be completed and evaluated. It would seem that most of our patients are happy with the services we provide and on behalf of the practice thank you to all those who completed these questionnaires.

With the ever changing NHS we, the practice, strive to improve all services we provide and are always looking for improvements and new innovative ways to make the patient experience as pleasant as possible.

Our plan for the next year is to continue to provide the services and to identify any areas we can improve, such as updating our website, improving technology into the practice by electronic prescriptions, self-check for patients and various other services.
